DoD Lung Cancer, Translational Research Partnership Award  
Army (Army), Department of Defense (Defense), U.S. Army Medical Research Acquisition Activity (USAMRAA)

Notice seeking applications to support partnerships between clinicians and research scientists that will accelerate the movement of promising ideas in lung cancer into clinical applications. This award supports the development of translational research collaborations between two independent, faculty-level (or equivalent) investigators to address a central problem or question in lung cancer in a manner that would be less readily achievable through separate efforts.

Required pre-applications are due May 15, 2019. Invited applications are due August 21, 2019. Approximately \$2.88 million is available to support two awards.

DoD Neurofibromatosis Investigator- Initiated Research Award  
Army (Army), Department of Defense (Defense), U.S. Army Medical Research Acquisition Activity (USAMRAA)

Notice seeking applications for highly rigorous, high-impact research projects that have the potential to make an important contribution to NF research and/or patient care. Research projects may focus on any phase of research, excluding clinical trials. The rationale for a research idea may be derived from laboratory discovery, population-based studies, a clinician's firsthand knowledge of patients, or anecdotal data. Applications must include preliminary and/or published data that are relevant to NF and the proposed research project.

Required pre-applications are due May 23, 2019. Invited applications are due June 6, 2019. Approximately \$6 million is available for seven awards.

DoD Parkinson's Investigator-Initiated Research Award  
Army (Army), Department of Defense (Defense)

Notice seeking applications to support highly rigorous, multidisciplinary, high-impact research projects that

have the potential to make an important contribution to Parkinson's disease research and/or patient care.

Required pre-applications are due July 9, 2019. Invited applications are due July 24, 2019.

DoD Peer Reviewed Cancer Programs (Multiple Opportunities)  
Army (Army), Department of Defense (Defense)

Notice seeking applications that support innovative research for the prevention, detection, and treatment of cancer. Focus areas include colorectal cancer, genetic cancer, kidney cancer, listeria vaccine for cancer, liver cancer, melanoma and other skin cancers, mesothelioma, myeloproliferative disorders, neuroblastoma, pancreatic cancer, and stomach cancer.

Required pre-applications for Idea Award with Special Focus, Impact Award and Translational Team Science Award are due May 22, 2019. Required pre-applications for Career Development Award and Horizon Award are due August 21, 2019. Multiple awards expected.

Institutional Translational Research Training Program (T32)

National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Neurological Disorders and Stroke (NINDS); National Institute on Aging (NIA)

Notice seeking applications to equip trainees with the knowledge and skills needed to advance basic research toward clinical application. These programs will support, students and/or postdocs conducting basic, disease-relevant research in an environment that includes 1) basic scientists and clinicians who are actively engaged in collaborative research projects, 2) neuroscience researchers with expertise in translational processes who are conducting research designed to move basic discoveries toward clinical application and 3) relationships with industry and government regulatory agencies.

Requested letters of intent are due 30 days prior to the application due date. Applications are due May 29, 2019; May 27, 2020; and May 26, 2021.

Creating Options for Veterans Expedited Recovery (COVER) Commission; Notice of Meeting  
Department of Veterans Affairs (VA), Creating Options for Veterans' Expedited Recovery (COVER)  
Commission

Notice announcing a meeting scheduled to discuss the evidence-based therapy treatment model used by the VA for treating mental health conditions of Veterans and the potential benefits of incorporating complementary and integrative health approaches as standard practice throughout the Department. The planned following topics include: (1) Models of care; (2) care system financial information; (3) tele-mental health; (4) Veteran's family experience and discussion with senior officials from the VA.

The meeting will be held April 16, 2019, from 9:00 a.m. to 5:00 p.m. ET and April 17, 2019 from 8:00 a.m. to 5:00 p.m. ET at Hilton Garden Inn Washington DC Downtown, 815 14th Street NW, Washington, D.C. Attend in person by registering with the contact. Attend via teleconference by calling 800-767-1750 and entering access code 48664#.

Development of Sample Sparing Assays for Monitoring Immune Responses (U24 Clinical Trial Not Allowed)

National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Allergy and Infectious Diseases (NIAID)

Notice seeking applications to accelerate the development and validation of sample sparing assays that can be applied for studying the human immune system in health and disease. Development of new, cutting-edge sample sparing assays will lead to maximum use of the human-derived specimens by significant reduction of sample volumes/amounts required or by simultaneous multi-parameter assessments of immune function.

Requested letters of intent are due 30 days prior to the application due date. Applications are due July 30, 2019. Approximately \$5 million is available to support 8 to 10 awards.

ITCR: innovative algorithms (R21 Clinical Trial Optional)

National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Cancer Institute (NCI)

Notice seeking applications for the development of innovative methods and algorithms in biomedical computing, informatics, and data science addressing priority needs across the cancer research continuum including cancer biology, cancer treatment and diagnosis, early cancer detection, risk assessment and prevention, cancer control and epidemiology, and/or cancer health disparities. As a component of the NCI's Informatics Technology for Cancer Research (ITCR) Program, this FOA encourages applications focused on the development of novel computational, mathematical, and statistical algorithms and methods that can considerably improve acquisition, management, analysis, and dissemination of relevant data and/or knowledge.

Requested letters of intent are due 30 days prior to the application due date. Applications are due June 11, 2019. Approximately \$1.24 million is available to support six awards.

High-Risk Research in Biological Anthropology and Archaeology  
Directorate for Social, Behavioral & Economic Sciences (SBE), National Science Foundation (NSF),  
Division of Behavioral and Cognitive Sciences (BCS)

Notice seeking proposals that provide investigators with the opportunity to assess the feasibility of an anthropological research project. It is required that the proposed activity be clearly high risk in nature. The information gathered may then be used as the basis for preparing a more fully developed research program.

Proposals are accepted anytime. Up to \$150,000 is available to support two to five awards.

Network Director for the U.S. Testing Expertise and Access for Marine Energy Research (TEAMER)  
Program  
Department of Energy (Energy), Office of Energy Efficiency and Renewable Energy (EERE)

Notice seeking applications to provide developers access to Marine and Hydrokinetic (MHK) testing facilities. TEAMER will also lend technical expertise to assist with numerical modeling and data collection. TEAMER will be a collaborative effort including universities as well as already established national laboratories and National Marine Renewable Energy Centers (NMRECs). The Network Director will be the lead for administering periodic Request for Technical Support (RFTS) for participation in the U.S. TEAMER Program.

Concept papers are due April 25, 2019. Applications are due June 7, 2019. Approximately \$10 million is available.

Pipeline Safety Research Competitive Academic Agreement Program (CAAP)  
U.S. Department of Transportation (DOT), Pipeline and Hazardous Material Safety Administration  
(PHMSA)

Notice seeking applications for CAAP funding to research innovative solutions to pipeline corrosion and

other known pipeline integrity challenges. The CAAP initiative is intended to spur innovation by enabling academic research focused on high technical risk and high pay-off solutions for the many pipeline safety challenges.

Questions are due April 12, 2019. Applications are due May 3, 2019. Approximately \$2 million is available to support multiple awards. Cost share of 20 percent is required for CAAP agreements.

Sustained Availability of Biological Infrastructure  
Directorate for Biological Sciences (BIO), National Science Foundation (NSF)

Notice seeking applications that support the continued operation of extant infrastructure that will advance basic biological research. Infrastructure supported under this program may include cyberinfrastructure, instrumentation, experimental or observational facilities, biological living stocks which have ongoing costs of operation and maintenance that exceed the reasonable capacity of the host institution. Proposals must make a compelling case that sustained availability of the proposed infrastructure will advance or transform research in biological sciences.

Proposals are accepted anytime. Approximately \$5 million is available for up to three awards.

State of the Art MS Tools for MI Experiments and Analysis  
Army (Army), Department of Defense (Defense)

Notice seeking information on modeling and simulation (M&S) tools designed to evaluate military intelligence (MI) concepts, future prospective capabilities, and architectures. Suitable M&S technologies and tools must help lab personnel to evaluate future force concepts and prospective capabilities across multiple scenarios and future time horizons. Additionally, suitable M&S tools must help to reduce the research, development, testing, and evaluation risks inherent to Army force modernization.

White papers are due May 15, 2019. Submit questions and white papers to both contacts.

NSF Program on Fairness in Artificial Intelligence (AI) in Collaboration with Amazon  
Directorate for Computer & Information Science & Engineering (CISE), Directorate for Social, Behavioral & Economic Sciences (SBE), National Science Foundation (NSF)

Notice seeking proposals for computational research focused on fairness in AI, with the goal of contributing to trustworthy AI systems that are readily accepted and deployed to tackle grand challenges facing society. Specific topics of interest include, but are not limited to transparency, explainability, accountability, potential adverse biases and effects, mitigation strategies, validation of fairness, and considerations of inclusivity. Funded projects will enable broadened acceptance of AI systems, helping the U.S. further capitalize on the potential of AI technologies.

Required letters of intent are due May 10, 2019. Proposals are due June 25, 2019. Six to nine awards are anticipated, with a funding range of \$750,000 to \$1,250,000.
