Fiscal Year (FY) 2019 Cooperating Technical Partners (CTP) Program
Federal Emergency Management Agency (FEMA), Department of Homeland Security (Homeland Security)

Notice seeking applications to enhance the existing capabilities of Cooperating Technical Partners Program to increase local involvement in, and ownership of, the development and maintenance of flood risk data and products, such as the Flood Insurance Rate Maps and other risk related products, as well as other support to advance the goals and objectives of the Risk Mapping Assessment and Planning program (This is a multi-regional funding opportunity).

Applications are due June 18, 2019. Approximately \$110 million is available for 93 awards to support projects lasting up to two years for Program Management, Community Outreach and Mitigation Strategies, and Map Revision and four years for Technical Hazard Identification, Risk Analysis and Mapping Projects. State universities, whose activities support floodplain management and flood mitigation actions within NFIP communities meet ground-level eligibility requirements. Additional FEMA criteria may apply.

Buildings Energy Efficiency Frontiers & Innovation Technologies (BENEFIT) – 2019
Department of Energy (Energy)

Notice seeking applications to develop innovative technologies that will improve energy productivity, improve flexibility, security and resiliency, as well as lower energy costs. The mechanism intends to fund high-impact, early-stage research in the following three topic areas: Flexible Building Technologies; Heating, Ventilation and Air Conditioning Technologies; and Solid-State Lighting Technologies.

Applications are due July 15, 2019. Multiple awards are anticipated with a per-award ceiling of \$6 million.

Computer and Information Science and Engineering (CISE) Research Initiation Initiative
Directorate for Computer & Information Science & Engineering (CISE), National Science Foundation (NSF)

Notice seeking proposals to support research independence among early-career academicians who specifically lack access to adequate organizational or other resources. It is expected that funds obtained through this program will be used to support untenured faculty or research scientists (or equivalent) in their first three years in a primary academic position after the PhD, but not more than five years after completion of their PhD.

Proposals are due August 14, 2019 and Second Wednesday in August, annually thereafter. Approximately \$10 million is available to support 55 to 60 awards.

Physics Frontiers Centers
National Science Foundation (NSF)

Notice seeking proposals from university-based centers and institutes where the collective efforts of a larger group of individuals can enable transformational advances in the most promising research areas. The program is designed to foster major breakthroughs at the intellectual frontiers of physics by providing needed resources such as combinations of talents, skills, disciplines, and/or specialized infrastructure, not usually available to individual investigators or small groups, in an environment in which the collective efforts of the larger group can be shown to be seminal to promoting significant progress in the science and the education of students. Activities supported through the program are in all sub-fields of physics.

Required preliminary proposals are due August 1, 2019. Approximately \$8 million is available to fund three to five awards.
