

Team Evaluation Form
ENEE-3092

This form is to be used by every member of the group in order to evaluate himself/herself as well as every other team member.

PROJECT NAME: _____

DATE: _____ SEMESTER: _____

Instructions: Rate every member's performance as well as yourself on a scale from 1 to 4. Add the results of each column and average the result. Assign final grade using the 4-point scale. (For example, 3.0 to 4.0 = A.)

GRADER'S NAME: _____

Table with 11 columns and 14 rows. The first column is labeled 'Member's Last Name' and 'NAMES:'. The rows include: Attendance on scheduled class day, Weekly progress reports, Were assigned tasks accomplished in a timely fashion?, Individual's ability to design electrical engineering tasks, Specific group contributions (Did your immediate team members contribute to your team?) (Only within your group.), Contribution to the Senior Design Project as a whole, Contribution to the final assembly, Contribution to the final presentation, Contribution to the final reports (Did the member give schematics, data sheets, and any other information to complete a proper report?), TOTAL, AVERAGE, and LETTER GRADE.
