****Memorandum****

Per purchasing guidelines, we are requesting approval for a project account to be created to build a concrete crossover between the pay parking lot access ramp and the biology building access ramp. We wish to transfer \$5,694.00 from the SGA Reserve account into this new project account.

On Tuesday, April 23, 2018, the Student Government Association (SGA) approved the attached legislation to request this project. SGA believes this is an important step in making our campus more accessible for all students.

CC: Kenady Hills, Student Body President

A Senate Bill

This is a bill to allocate \$5177.00, (including a 10% overage allowance of \$517.) from the SGA Operating Account, to provide a crossover from handicap parking lot ramp to Biology Bldg. Handicap Ramp (see photograph attached)

WHEREAS, the placement of parking lot ramp does not lead to biology building ramp, though they are in direct line of each other, there is a patch of grass in between causing wheelchairs a 50 foot detour. The current set-up is considered "ADA compliant" but still extremely inconvenient.

WHEREAS the Administration has no further requirement to make this crossover this bill is purely to provide convenience for those needing the ramp.

ACKNOWLEDGING that this allocation will benefit all disabled students, wheelchairs and lab carts between science and bio buildings.

BE IT ENACTED BY THE UNIVERSITY OF NEW ORLEANS STUDENT GOVERNMENT ASSOCIATION THAT:

- I. THE AMOUNT OF \$5,177 plus \$517 (10% overage allowance), allocated from the SGA Operating Account to UNO Facilities
- II. ALL UNUSED FUNDS SHALL REVERT BACK TO THE STUDENT GOVERNMENT ASSOCIATION AT THE END OF THE CURRENT FISCAL YEAR.
