## COLLEGE OF SCIENCES

### Tomorrow begins here.

Careers in science, technology, engineering, and math (STEM) are growing at a faster pace than those in any other field. And not only are there more jobs in the field, STEM careers command larger starting salaries. Our College of Sciences will give you the preparation you'll need to start strong. We go heavy on faculty-guided, hands-on experiences so that when you graduate you'll have professional confidence—and the skills to back it up. We invite you to explore our college and then reach out to see how we can help you build a future suited to your strengths.

APPLY NOW

REQUEST INFORMATION

Graduates from UNO's pre-professional programs have a 10 percent higher rate of acceptance to medical and dental schools than the national average.

### Degrees that shape the future.

UNO is the only public research university in New Orleans. In the College of Sciences, we take this distinction seriously. Through our seven departments, we embrace our status as a public research university seriously and in every one of our programs you will have opportunities to participate in research with dedicated professionals who work at the frontiers of knowledge.

Our Advanced Materials Research Institute (AMRI) holds over \$10 million of specialized materials research instrumentation, including a Class 100 clean room and the Ultra-Low Temperature Lab—the coldest place in Louisiana at -459 degrees Fahrenheit.

### Don't just study science. Experience it.

In the College of Sciences, we empower our students to design their own path to success. With active learning approaches, ample opportunities for hands-on and applied learning, and chances to engage with other students and the community, our students are trained in academic scholarship and real-world skills to be the scientific leaders of tomorrow.

# ABOUT THE COLLEGE OF SCIENCES

As one of the largest colleges at UNO, the College of Sciences (COS) offers diverse paths of study spanning the scientific disciplines of biology, chemistry, computer science, earth and environmental sciences, mathematics, physics, and psychology. Its seven departments and four research institutes partner with industry and government to conduct cutting-edge research, expand the frontiers of knowledge, and fuel scientific and business growth. Students work side-by-side with distinguished faculty; through small class sizes and a student-centered approach to learning, we foster an enriching and supportive academic community. With occupations in the STEM (Science, Technology, Engineering, and Math) disciplines estimated to grow 1.7 times faster than non-STEM fields, graduates of COS are trained in both academic scholarship and real-world skills to be the scientific leaders of tomorrow.

## OPPORTUNITIES

Twenty student organizations offer ample opportunity for students to get involved, develop leadership skills, and attend professional and networking events. We know that learning does not just take place in the classroom and experiential learning is highly encouraged through the College of Sciences Undergraduate Research Program (COSURP), AMAi Summer Research Experience for Undergraduates Program, and classes that provide course credit for participation in research projects. Many faculty also offer paid and volunteer research positions to work alongside them and graduate students in their laboratories or in the field. Students are able to apply their skills in real-world applications through internships such as the GE Software Engineering Apprenticeship Program (SWEAP). Opportunities are also available to earn course credits for interning with local companies and organizations.

## ACCREDITATIONS

Computing Accreditation Commission of ABET  
Greater New Orleans Center for Information Assurance (GNOCIA) designated a National Center of Academic Excellence in Information Assurance Education, in Information Assurance Research, and in Cyber Operations by the National Security Agency and Department of Homeland Security.

# GRADUATE SCHOOL ADMISSION REQUIREMENTS

## Minimum Academic Credentials

- Bachelor's degree from a regionally accredited institution in the U.S. or a 4-year degree equivalent from a recognized institution of higher learning abroad.
- Applicants enrolled in the final year of a bachelor's degree or international equivalent will be considered for conditional admission.

## Minimum GPA Requirements

- 2.5 grade point average (GPA) on a 4-point scale for all undergraduate coursework
- 3.0 grade point average (GPA) on a 4-point scale for all graduate coursework

## Entrance Test Score Requirements

*GRE and GMAT are not required for applicants to the M.F.A. program in Creative Writing, the M.F.A. program in Film & Theatre Arts, the M.F.A. program in Fine Arts, the M.M. program in Music, the M.A. program in English, the M.A. program in History, the M.S. program in Chemistry, and the M.S. program in Hospitality & Tourism Management. GRE or GMAT may be waived for students entering Master's programs upon receipt of a transcript for a prior graduate degree (including J.D., M.D.)*
