FY22 Defense Established Program to Stimulate Competitive Research (DEPSCoR) – CAPACITY BUILDING (CB)
Department of Defense (Defense), Air Force Office of Scientific Research (AFOSR)

Notice seeking proposals to improve the research capabilities at institutions of higher education (IHE) in eligible States/Territories to perform competitive basic research in science and engineering that is relevant to the DoD mission and reflect national security priorities.

Required white papers are due September 19, 2022. An estimated one to four awards of up to \$1 million each is available.

LINKS: [Grants.gov](#)

FY22 Defense Established Program to Stimulate Competitive Research (DEPSCoR) – RESEARCH COLLABORATION (RC)
Department of Defense (Defense), Air Force Office of Scientific Research (AFOSR)

Notice seeking proposals that advance knowledge in basic science involving bold and ambitious research that may lead to extraordinary outcomes such as disrupting accepted theories and perspectives.

Required white papers are due September 19, 2022. An estimated 25 awards of up to \$600,000 each is available.

Leading Engineering for America's Prosperity, Health, and Infrastructure
Directorate for Engineering (ENG), National Science Foundation (NSF)

Notice seeking proposals that challenges the engineering research community to take a leadership role in addressing demanding, urgent, and consequential challenges for advancing America's prosperity, health and infrastructure. LEAP HI proposals confront engineering problems that are too complex to yield to the efforts of a single investigator — problems that require sustained and coordinated effort from interdisciplinary research teams, with goals that are not achievable through a series of smaller, short-term projects.

Required letters of intent are due July 15, 2022 and July 15, every other year thereafter. Up to \$12 million is available to fund three to six awards.

LINKS: [Grants.gov](#), [Solicitation](#)

Modeling Influence Pathways (MIPs)
Defense Advanced Research Projects Agency (DARPA), Department of Defense (Defense)

Notice seeking proposals to connect information flows into pathways used to disseminate and amplify mis-, dis-, and manipulated information. For example, pathways might be characterized as a series of edges between nodes in a graph where the nodes represent online or offline platforms or communities. Phase 1 will focus on the automated or semi-automated discovery and modeling of pathways and associated patterns. Phase 2 of MIPs will focus on scaling up the span of discovery and models (e.g., pathways for additional types of information, pathways spanning more of the information ecosystem) and demonstrating how models may be used to answer relevant analytic questions.

Proposals are due June 2, 2022. The total award value is limited to \$1 million for both Phase 1 and Phase 2.
