Geometric Analysis  
National Science Foundation (NSF)

Notice seeking proposals for research on differential geometry and its relation to partial differential equations and variational principles; aspects of global analysis, including the differential geometry of complex manifolds and geometric Lie group theory; geometric methods in modern mathematical physics; and geometry of convex sets, integral geometry, and related geometric topics.

Proposals are due by November 1, 2022. Multiple awards are anticipated.

LINKS: [Grants.gov](#), [Solicitation](#)

---

Topology  
National Science Foundation (NSF)

Notice seeking proposals for research on algebraic topology, including homotopy theory, ordinary and extraordinary homology and cohomology, cobordism theory, and K-theory; topological manifolds and cell complexes, fiberings, knots, and links; differential topology and actions of groups of transformations; geometric group theory; and general topology and continua theory.

Proposals are due by November 1, 2022. Multiple awards are anticipated.

Advanced Scientific Computing Research - Reaching a New Energy Sciences Workforce (ASCR-RENEW)  
Department of Energy (Energy), Office of Science (SC)

Notice seeking applications to increase participation of underrepresented groups in the quantum computing and networking workforce and to increase participation of underrepresented institutions in quantum computing and networking workforce training. SC-ASCR is fully committed to advancing a diverse, equitable, and inclusive research community which is key to providing the scientific and technical expertise for U.S. scientific leadership.

Required pre-applications are due August 3, 2022. Approximately \$5 million is available to fund multiple awards.

Basic Energy Sciences - Reaching a New Energy Sciences Workforce (BES-RENEW)  
Department of Energy (Energy), Office of Science (SC)

Notice seeking applications to increase participation of underrepresented groups in BES's clean energy

research portfolio. BES is fully committed to advancing a diverse, equitable, and inclusive research community, which is key to providing the scientific and technical expertise for U.S. scientific leadership.

Required Letters of intent are due August 2, 2022. Applications are due 23, 2022. Approximately \$15 million is available.

Limited Submission: One application per institution

Harmful Algal Bloom Field Validation Program: Aquatic Nuisance Species, Broad Agency Announcement  
Special Topic Area  
Department of Defense (Defense), Army Corps of Engineers (ACE)

Notice seeking proposals that focuses on the field validation of innovative Harmful Algal Blooms (HAB) prevention and management technologies, or combinations of technologies, that have been proven at lab or pilot scales. It is essential that these technologies are cost-effective and efficient in varied freshwater system types (e.g. lotic, lentic) and varied climatic ecoregions across our Nation.

Required pre-proposals are due June 21, 2022. Proposals are due July 15, 2022. Approximately \$4 million is available to fund two to five awards.

---

Reaching a New Energy Sciences Workforce (RENEW) - Earth and Environmental Systems  
Department of Energy (Energy), Office of Science (SC)

Notice seeking applications to support fundamental science research projects and capabilities that enable improved understanding and predictability of the climate, environmental, and Earth system.

Required pre-applications are due June 29, 2022. Approximately \$3 million is available to fund four to seven awards.

Limited Submission: Two application per institution

Public Listening Session on Implementing Initial Findings and Recommendations of the National Artificial Intelligence Research Resource Task Force  
National Science Foundation (NSF), Office of Science and Technology Policy (OSTP)

Notice announcing a virtual listening session to seek public input on the implementation of the initial findings and recommendations contained in the interim report of the National Artificial Intelligence Research Resource (NAIRR) Task Force ("Task Force"). The Task Force has been directed by Congress to develop an implementation roadmap for a shared research infrastructure that would provide artificial intelligence (AI) researchers and students with access to computational resources, high-quality data, training tools, and user support.

The session will be held on June 23, 2022, 1:00-3:00 p.m. ET via Zoom.
