SCIENCE, TECHNOLOGY, ENGINEERING, and MATHEMATICS

All Hazards Energy Resilience
Energy

Notice seeking proposals to advance tools and technologies specifically designed to reduce risks to energy delivery infrastructure from all hazards including cybersecurity, physical security, and climate effects.

Proposals are due March 4, 2024. Estimated \$27 million is available to fund up to 27 awards. Cost sharing is required.

LINKS: [Grants.gov](#)

ECosystem for Leading Innovation in Plasma Science and Engineering
National Science Foundation

Notice seeking proposals that supports translational plasma science research focused on societal and technological problems within the scope of the Directorates of Engineering, Geosciences, and Mathematical and Physical Sciences.

Proposals are due August 13, 2024 and September 30, 2024.

LINKS: [Grants.gov](#); [Solicitation](#)

Expanding Capacity in Quantum Information Science and Engineering
National Science Foundation

Notice seeking proposals to increase research capacity and broaden participation in Quantum Information Science and Engineering (QISE) and related disciplines through the creation of a diversified investment portfolio in research and education that will lead to scientific, engineering and technological breakthroughs, while securing a talent pipeline in a field where workforce needs of industry, government and academia continue to outgrow the available talent.

Required letters of intent are due March 8, 2024 for Track 2. Proposals are due April 1, 2024. Estimated \$20 million is available to fund 20 to 30 awards.

LINKS: [Grants.gov](#); [Solicitation](#)

Minority Serving Institutions Partnership Program (MSIPP) Consortia Grant Program (CGP)
Energy

Notice seeking applications from consortia partnerships consisting of Minority Serving Institutions (MSIs) and Tribal Colleges and Universities (TCUs) with a focus on building and supporting the workforce capacity of the National Nuclear Security Administration's (NNSA) Nuclear Security Enterprise (NSE) by expanding scientific and technical knowledge in the areas of Advanced Manufacturing, Cybersecurity, Engineering, or Nuclear Security, providing experiential learning opportunities for students in Science, Technology, Engineering, and Mathematics (STEM) related disciplines, building and strengthening research and education capacities of the participating institutions, and promoting collaborations between Institutions of Higher Education (IHEs) the Department of Energy (DOE) NNSA NSE.

Applications are due annually on March 15 and June 15 until 2026. Estimated \$5 million is available to fund five or more awards.

LINKS: [Grants.gov](#)

Nuclear Data Interagency Working Group (NDIAWG) Research Program
Energy

Notice seeking proposals to the Nuclear Data InterAgency Working Group / Research Program for research projects intended to answer nuclear data questions of interest to the research communities supported by those programs and offices.

Required letters of intent are due February 5, 2024. Estimated \$12 million is available to fund multiple awards.

LINKS: [Grants.gov](#)

Proposer's Day- VideoLINCS Proposers Day
DNI

Notice announcing proposers' day for the VideoLINCS. The Video LINCS program aims to develop novel capabilities to autonomously re-identify objects across diverse video sensor collections and map all objects to a common reference frame. Re-identification (reID) is the process of matching the same object across a video collection, to determine where the object appears throughout the video.

The proposers' day will be held on Wednesday, February 7, 2024, from 9:30 a.m. to 4:30 p.m. ET in Linthicum, MD. Registrations are due by February 1, 2024 at <https://www.client-meeting.net/videolincs-proposers-day> .

Future Manufacturing
National Science Foundation

Notice seeking proposals to support fundamental research, education, and training of a future workforce to overcome scientific, technological, educational, economic, and social barriers in order to catalyze new manufacturing capabilities that do not exist today. Future Manufacturing seeks inventive approaches to

invigorate the manufacturing ecosystem and seed nascent future industries that can only be imagined today.

Proposals are due April 11, 2024 and January 13, 2025. Estimated \$28 million is available to fund 16 awards.

LINKS: [Grants.gov](#); [Solicitation](#)

FY2024 Research Opportunities in Accelerator Stewardship and Accelerator Development
Energy

Notice seeking proposals to conduct cross-cutting use-inspired basic research and development to advance accelerator science and technology and domestic supplier development that supports activities in physical sciences research, and which is of broader benefit to other U.S. government agencies and industry.

Required pre-applications are due February 6, 2024. Estimated \$20 million is available to fund up to 14 awards.

LINKS: [Grants.gov](#)

Marine Turtle Conservation Fund
Interior

Notice seeking proposals to recover and sustain viable populations of marine turtles in the wild by reducing threats to these marine turtles in their natural habitat.

Proposals are due March 18, 2024. Estimated \$2 million is available to fund 10 awards.

LINKS: [Grants.gov](#)

Research in Basic Plasma Science and Engineering
Energy

Notice seeking proposals to carry out frontier-level research in basic plasma science and engineering.

Required pre-applications are due February 9, 2024. Estimated \$5 million is available to fund multiple awards.

LINKS: [Grants.gov](#)

Responsible Design, Development, and Deployment of Technologies
National Science Foundation

Notice seeking proposals from multidisciplinary, multi-sector teams that examine and demonstrate the principles, methodologies, implementations, and impacts associated with responsible design, development, and deployment of technologies in practice.

Proposals are due April 22, 2024. Estimated \$16 million is available to fund 28 to 36 awards.
