Quorum was established for undergraduate and graduate voting members in attendance.

Dr. Green will join the newly formed UCC Subcommittee.

Dr. Noyes indicated that TNRS 7040 should be tabled until more information can be gathered regarding a change in policy for 0 credit hour courses.

Dr. Noyes will speak directly with Kim Jovanovich regarding the syllabus for ENGR 1003.

Prof. Harper asked if UNIV 3002 could be used as elective credit. It is at the description of a student's program if the course could be used as an elective credit.

Recommendations:

The departments and colleges should be sent the La. Board of Regents website with course and program CIP (Classification of Instructional Programs) Codes which are used to calculate funding for the university. The departments and colleges determine the correct code, not the Registrar's office.

Dr. Alsamman pointed out that we should be more cognizant of the version of forms that are submitted. It was pointed out that some of the proposals submitted used older forms that did not include the justification box.
