**Subject:** FW: Suggestion Form

Dave - Here is another one.

Suggestion/Concern:

1- I have several questions regarding the emergency alert system. An alarm went off in the UC on 10/6/17 around noon and told everyone to exit the building. No text messages or emails were sent, no UNOPD were there, and we never got an all clear or found out what it's for. Is that the same alarm we would hear in a tornado?

2- Also, what is the code we should use with UNOPD over the phone in the event that we have an unsafe situation since they now have an officer with the last name Green? Thanks!

✓ 1- The Privateer Alert system is different from a building fire alarm system.

- A building fire alarm will NOT send out text or email messages, it will only sound the fire alarm bells in the building and some systems will give a message to exit the building. The fire alarm will not give an all clear message. That message would come from either a building administrator or the UNOPD. Once the location of the fire or smoke is detected the UNOPD officers would respond to the specific location of the fire or smoke. If the situation is under control, or it is a false alarm, and the New Orleans Fire Department is not needed, the alarm is turned off and people are allowed back into the building. Usually a building administrator would tell the people it is OK to re-enter the building.
- The Privateer Alert system is the emergency communication system that sounds the 2 sirens on the campus if the threat is one of the following; a shooter on campus, a tornado endangering the university or a chemical cloud covering the university area. This system also sends out text messages to registered users and emails to all the .uno.edu email addresses. It now sends a message to each university computer that is turned "on" and the user is logged on to the university system, a message will pop up on your screen. This system will also send out the message through the universities Twitter and Facebook feeds. This system is activated by the UNOPD and it sends a message at the beginning of the emergency, sends updates throughout the emergency, and sends an "all clear" when the emergency is over.

2 - According to the UNOPD Officer that I spoke to the code referred to in the last part of the question, has NOT changed, it is still Mr. Green.

- ✓ 1. I keep hearing rumors that the management company that runs Privateer Place will soon manage Pontchartrain Halls and Lafitte Village. I won't feel comfortable this set up. Is there anyway to confirm this?
  - a. *But the short answer to the question is that no, this is not likely to happen. – Gregg Lassen*
  
- ✓ 2. What's the deal with the empty snack machines? I understand that we may have switched to new machines and/or a new vendor, but you still need to fill them. #hangry
  - a. *We did change vendors – now it is Ace Vending. Contract was up so it had to go out to bid and they won the bid. I know there was a bit of a lag when the old company took their machines out and the Ace put in their machines, but thought they were filled and working. Please let me know what building the machine is/was empty and I will call Ace and get them to fill it. – Catherine Beckman*
  
- ✓ 3. some non civil service employees have not received raises since Katrina. Will the university ever get to the point of giving raises again?
  - a. *I'll be happy to discuss at the November meeting. - John Nicklow*
  
- ✓ 4. can't Sodexo clean up the campus and the buildings? Why is there so much trash around campus? With all the trash by the doors, people walking into the buildings track it inside. It would be smart to clear the trash away from the entrance doors to maintain the inside clean. Why are there so many lights out in the buildings? Why are the buildings not ALL unlocked by 7:45 for the 8am classes?
  - a. *Hopefully the new arrangement with Sodexo will help in keeping the buildings clean. Facility Services is in the process of replacing existing florescent lights with LED lighting in several buildings. In the meantime, lights that are out should be replaced. Facility Services should be notified if lights are not replaced in a timely manner. [REDACTED] Sometimes, contravening events take priority from opening doors and prevent buildings from being opened on time. Facility Services will open doors asap once notified. – Warren Davis*
  
- ✓ 5. I understand that everyone in HR just received a 7% raise, under the guise that they are doing more than their job description. These days, aren't we ALL doing more than our original job description? How does one office on campus get an across the board raise but the rest of us sit stagnant with our "old" salaries? This does not seem fair to the majority and should be addressed in a monthly meeting.
  - a. *Only classified employees have received a pay increase. Notices for these are put on the HR notice board. None of the non-classified employees have received a pay increase. - HR*
  
- ✓ 6. The light at the corner of Waldo/Founders Road and Leon C. Simon as you exit campus is extraordinarily long, especially if you are the sole car at the light. Folks often resort to

running the red light due to the long wait. Can something can be done about this? I'm scared that someone will run that light and cause an accident.

a. *This is a City Issue. You can say the Safety Office has reported the complaint to the city public works department. – David Richardson*

OGB is offering a new benefit to eligible members and their adult family members enrolled in an Office of Group Benefits Blue Cross health plan.

It's a health program called Omada that combines the latest technology with personal support to nudge you towards healthier habits and weight loss. If you're eligible, we're making it available to you at no cost.

**Did you know that about 60% of US adults are at risk for diabetes or cardiovascular disease?**

We've reached a point where people are now more likely to die from something that's entirely preventable—in all likelihood related to obesity—than by getting an infectious disease.

That's scary. We can't let that happen to our members, so we're doing something about it.

**What is Omada?**

Omada is an interactive online program that helps build new healthy habits, step-by-step.

When you join Omada, you'll get:

- A professional **health coach** to keep you on track.
- A wireless smart scale to monitor your progress.
- Weekly online lessons to educate and inspire you.

A peer group of participants to support you throughout the core 16-week program.

It's a really innovative approach that combines science with personal support.

**Results**

If you've tried other diets or programs without success, I urge you to try Omada.

The average participant:

- Loses over 10 pounds at the end of 16 weeks.
- Helps reduce their risk for chronic diseases like type 2 diabetes and heart disease.

For more information about Omada please visit [omadahealth.com/OGB](http://omadahealth.com/OGB)

## Quitter's Circle Smoking Cessation

- In a 2015 survey sponsored by Pfizer and the American Lung Association, which included 146 adult smokers attempting to quit, 80% reported that support from others, including friends, family, significant others, and co-workers, is very important to quitting successfully.
- Only 4% to 7% quit attempts are successful when left unaided.
- Healthcare providers can help smokers design a quit plan. Medication and counseling from a healthcare provider can double a smoker's chances of quitting successfully.

### TOBACCO CESSATION PILOT PROGRAM FOR STATE EMPLOYEES

State employees who are ready to quit smoking or using tobacco are encouraged to enroll in a tobacco cessation program through the Louisiana Tobacco Quitline (1-800-QUIT-NOW). The quitline's certified quit coaches work with each caller to develop a free personalized quit plan. Program participants receive up to five free telephone coaching sessions and other resources. [Click here for more information.](#)

### SMOKING CESSATION TRUST

If you are a Louisiana resident who developed a smoking habit before September 1, 1988, and would like to stop, you may be eligible to receive cessation medications, individual or group cessation counseling, telephone quit-line support and/or intensive cessation support services at no cost. Getting that support can greatly increase your chances of quitting. Click here to learn more about the Smoking Cessation Trust and how to apply. ## Info from OGB

### New Life Insurance Premium Rates

Effective January 1, 2018, the premium rates for OGB's life insurance plans will have a new structure. The premium rates for the Prudential Basic and Basic Plus Supplemental plans will be age based. The new rates can be found on the OGB website under the Life Insurance tab or by clicking [here](#).

If you are an active employee, annual enrollment is the only time you may apply for or drop life insurance. You must complete an application as well as an Evidence of Insurability form. Both can be found on the OGB website on the [Life Insurance](#) page or you may visit your human resources department.

If you are a retiree, annual enrollment is your opportunity to make changes to your coverage options or drop your life insurance. Contact OGB if you wish to change life insurance options or drop your coverage. Please take a moment to review the life insurance information and rates on our website.

Annual enrollment runs October 1, 2017 — November 15, 2017.

If you have questions, please contact OGB customer service at (800)-272-8451.

## 2018 Annual Enrollment

Annual enrollment is your opportunity to evaluate your health care needs and select the plan best suited to you and your eligible covered dependents. If you would like to remain in your current OGB health plan with the same covered dependents for the 2018 plan year, you do not need to do anything except to update your HSA or FSA contributions as applicable. Your current coverage will continue for the 2018 plan year. **Remember, members enrolled in the Pelican HSA775 and/or FSA options will need to update their contributions for 2018.**

**2018 Annual Enrollment Information**

Effective January 1, 2018, the premium rates for OGB's two voluntary plans will have a new structure. The premium rates for the Professional Plan and Basic Plan (dependent) plans will be age based. The new rates will be based on the OGB website under the 2018 enrollment tab or by phone.

If you are an active employee, annual enrollment is the only time you may apply for or drop the insurance. We need to know if you are still an active employee or if you are no longer an active employee. If you are no longer an active employee, please contact OGB at 504-251-4411 for more information.

If you are a retiree, annual enrollment is your opportunity to update changes to your coverage options or drop your life insurance. Contact OGB if you wish to change the business address or drop your coverage.

Please refer a request to enrollment to: My accounts, HR services and HRIS, or our website. Annual enrollment runs October 1, 2017 - November 30, 2017.
